EDUCATION

University of Southern California, Leventhal School of Accounting **Los Angeles, CA**
Master of Accounting (Strategic Finance Track) May 2026

- **Relevant Coursework:** Advanced Financial Statement Auditing, Fair Value Accounting, M&A: Tax Planning and Strategy, Management of Financial Risk, Investing in New Ventures

University of California, San Diego **La Jolla, CA**
Bachelor of Arts in Economics; Minor in Computer Science June 2023

- **Relevant Coursework:** Corporate Finance, Market Imperfections & Policy, Financial Markets, Advanced Data Structures, Linear Programming/Optimization, Operations Research
- **Activities & Societies:** The Investors Club

WORK EXPERIENCE

OakTech Systems **Irvine, CA**
Fund Strategy & Capital Markets Associate June 2026 – Present

- Build and maintain fund-level financial models covering fund economics, LP/GP distribution waterfalls, and return projections for emerging-manager vehicles
- Develop a Python-based modeling engine that replaces bespoke one-off spreadsheets with repeatable, auditable fund models, including scenario and sensitivity analysis across key return drivers
- Research and qualify prospective LPs and strategic partners, and prepare investor-facing materials including decks, one-pagers, and teasers to support capital formation and investor outreach

State Street Bank **Irvine, CA**
Fixed Income Associate November 2023 – January 2025

- Executed fixed-income repurchase agreement trades for PIMCO, across multiple fixed-income security types, totaling ~\$50B daily, ensuring timely settlement
- Priced collateral and validated trade inputs using Bloomberg Terminal, supporting accurate valuation/market checks, and investigated variances to resolve discrepancies
- Collaborated with portfolio managers, brokers, and internal operations teams to support reporting accuracy

Lotus Domaine **Irvine, CA**
Private Equity Analyst November 2022 – June 2023

- Built pro forma financial models to evaluate cash flows, investment performance, and projected returns
- Conducted market research and due diligence, supporting the completion of a \$130M real estate deal
- Authored investor reporting materials summarizing financial performance and key assumptions, contributing to fundraising momentum of \$500M

PROJECTS

Investment Banking Outreach Agent March 2026

- Developed an agentic AI system using LLM frameworks locally to automate the research of investment banks, identifying key decision makers, and extracting relevant deal history
- Built a multi-step workflow to scrape and synthesize data on senior bankers, generating personalized cold outreach emails based on shared interests and firm-specific news
- Optimized the outreach pipeline to streamline networking efforts, reducing the time spent on manual lead generation, research, and outreach by 80%
